Cocktails On Tap: The Art Of Mixing Spirits And Beer

Synopsis

Cocktails on Tap brings together two major trends—craft cocktails and craft beer—with more than 50 recipes for mixed drinks that feature beer. Beer has become a favorite ingredient for top bartenders around the world, and this book features the best of these contemporary creations alongside vintage classics. Drinks such as the Mai Tai-IPA put a hoppy twist on a favorite tiki cocktail with the addition of India Pale Ale. The Green Devil boosts the powerful Belgian beer Duvel with juniper-forward London Dry gin and a rinse of aromatic absinthe. In Cocktails on Tap, the vast range of today's beers—from basic lagers to roasty stouts and sour Belgian ales—is explored and tapped as a resource for making an innovative and delicious array of cocktails.

Customer Reviews

This book is a beautiful resource on using beer in cocktails. The photos are lovely and the primer on equipment and mixing techniques are spot on. The writing is good and actually full of interesting information. My boyfriend and I are avid home cooks and bartenders, both of us work in hospitality but just take our stab at cocktails at home. I am a beer lover, and work in the industry and love to play around with beer as an ingredient. I made two of the drinks tonight and they were wonderful!! Fun collection of recipes. Definitely some obscure ingredients in the book. We have a pretty stocked bar and would have to pick up a couple ingredients to make the majority of the drinks. I'm very happy with the collection and can't wait to keep drinking my way through!

bought this as a gift, but not before flipping through it myself. I like the elements of history seen through these recipes. it has a narrative read to it and it quite enjoy the style

Wonderful book! Every recipe is accompanied by it's history and interesting commentary. Any fan of beer based cocktail should really look into purchasing this beautifully made book.

Very informative and great recipes. A must have for any cocktail and beer enthusiast or industry professional.
