Customer Reviews

This book hits all the highlights and gives you a good overall guide to your latest generation of the Kindle Fire.

A must read for first time users. I recommend it for everyone. It explains a lot & helped me a lot.

This book is full of information about the kindle fire hd. A must read for new kindle owners. It is complete overview of the KFHD.

NEW Kindle Fire HD Manual is a great buy full of a lot of detailed and helpful information. It is an easy to read and easy to follow guide, wonderful for the first time Kindle user or users who already have a Kindle Fire. I found this guide to be extremely useful and I would recommend it to anyone looking to learn about their new product or just gain a little bit more info about the Kindle Fire. The author did a great job putting this book together with all the content made it very easy for the reader.

Not a bad intro with several tips that I couldn't find online. I am thoroughly enjoying my new Kindle! Thank you for a very fine product.

Easy to understand and very detailed, great for any new Kindle users. A lot of little tips I found useful and the images were also nice to look at.

This "manual" was not what I expected or what it's name implies. It gives virtually no help in the operation of text device or how to use the functions. Basically, it was just sales pitch/promotional tool. I wasted gift card money on this.

Me like it :) Very easy to read and understand The best info. All the most useful apps for my kindle fire hd
