Customer Reviews

Good information for a beginner (like me) in this field. Very practical and useful in both information and practical applications. I have learned a lot about the subject with this book.

Lots of information in it. Great for the beginner to read before getting started. helped me considerably. Saves lots of time and costly mistakes.,

Great book to learn from to start a new hobby. You learn methods, the equipment, rocks, etc. Highly recommend to all.

Short, sweet and to the point magazine like article. Gives you the same info you can find from the internet in paper form.

We are into the lapidary field big time, and was glad to have found this book. Sure is helpful with the tips.

Book is very helpful and packed with a lot of information

Has all the information that I required to switch to diamond for cutting gemstones. Great book.

This book was bought for my daughter who is interested making gemstones.
