Customer Reviews

Finally an amazing book on crock pot recipes! I've spent countless of days and weeks trying to put together crock pot recipes on pinterest for the new crock pot I bought and I have to say this book has saved me a lot of work! I like that it's broken down in different categories and that there is so many recipes to choose from! Great stuff in here!

This book has a lot of great recipes. Since its digital, its easy to search for recipes or ingredients. I love the dump meals to freeze in Ziploc bags several at a time. Then, I can just grab one from the freezer, pop it in the crockpot, and it's done by dinner! I am in no obligation to leave a positive review and I am not being paid to write a dishonest or biased review nor would I ever do that. I rely on reviews to make my decisions on almost every purchase I make on , so I want to provide an accurate description of my experience with the product in order to empower other shoppers to make informed decisions.out of the freezer and throw them in the crockpot to be ready by dinner. I downloaded to my older tablet, that I don't really use. I'm installing my digital cookbooks so I can keep it in the kitchen to replace my printed books.

This book has it all. It covers all forms of diets and healthy lifestyles. Some recipes seem slightly complicated but others seem so simple and sweet. However, I love to look at cookbooks but hate to do the cooking. This could actually allow me to dump and forget. Great Buy!!!

With so many recipes in here I am sure to never run of of exciting new things to make in my slow cooker. I have made a few already and all have turned out really well, all really easy to execute, always feel free to add whatever you think the dish needs to get it to that next level.

Full of great recipes, and I love how the book is organized into different types. You're sure to find something you'll want to try out immediately. I already know I'll be trying out a few this week!

Oh The meals I have made using this thing..I suprised my self and was suprised of the tastes, and tenderness of the meats. Needless to say, this is now my most used cookbook, and I can Access it anywhere.

I really like this book. The table of contents is grouped by types of recipes. When you click the type you want, turn the pager, and the page opens with numerous clickable recipes. Very easy to navigate and very easy to find what you want to eat. Just flipping through, I don't see pictures. The recipes show the total time but doesn't break down by prep and cook times. I have many recipes I want to make.

I am into crock Pot cooking so I am looking forward to using this book for a long time. I looked at the recipes and I know that I am going to have fun using this book. The book is very well laid out and easy to read. The instructions and pictures make the dishes look so good.
